### Step 2

Place the folded DSP over the Top Note die with the folded edge not completely covering the entire die. This is so it won't cut the DSP all the way. Run it through the Big Shot. You will end up with a long piece of DSP with a Top Note shape on either ends.

Step 2

### Step 3

Place your DSP into the Paper Cutter and score 1" from the center fold line on both sides. **Note:** Score very lightly so as to not cut through the DSP.
